Description

Please check below for all the bugs in the comments section:

Comments

Comment by Bassel Matta [09/11/24]

1.Need to change the icon of the dropdown from a pin location to be a down arrow similar to any dropdown menu

2. And put the arrow inside the text box:

Where are you parking?

Facility

put inside the box

Parking Now

le to render embedded object: File (image-2024-09-11-09-38-23-230.png) not found.

Unable to render embedded object: File (image-2024-09-11-09-38-31-882.png) not found.

Comment by Bassel Matta [09/11/24]

3. Also why do we allow the user to enter a text field, it should just be a dropdown menu that has the list of all facilities because the user doesnt know the exact facility name so it is easier to select it than to type it manually so they dont make any mistakes. If the user enter a wrong field name they get the following error:

Where are you parking?

Facility

buena

Parking Now

<   Mobile Parking

Starts

| 2024-09-11 | ⌄ | 9:00 | ⌄ |

Ends

Comment by Bassel Matta [09/11/24]

4. When the user select the start date for the daily rate, then the end date will be selected automatically:

<   Mobile Parking

How long do you want to park?

✓   8 Hours $50

○ 1 Week $300

○ 1 Month $850

Starts

| 2024-09-11 | ⌄ | 9:00 | ⌄ |

Ends

why can user select end date? shouldnt it be not clickable?
user can just edit the start date then the end date will be selected automatic.

| 2024-09-11 | ⌄ | 17:00 | ⌄ |

Continue

Back

Same thing with the one week and one month, the end date field should just be read only fields that will let the user know when they will need to leave the parking lot.

Comment by Bassel Matta [09/11/24]

5. Allow a maximum of 10 digits and insert these symbols automatically as the user start typing just to make it look better:

now the user can enter unlimited digits which is not right. max is 10 digit number.

6. change field color to be light color so it is easy to read:

Mobile Parking

Facility

ParkWhiz

Duration

2024-09-11T09:00:00 2024-09-11T17:00:00

Parking spots

1

Vehicle

513adf1df

Parking Subtotal	$50.00
Transaction Fee	$0.60
Order Total	$60.60

7. total amount need to be calculated correctly:

Mobile Parking

2024-09-11T09:00:00 2024-09-11T17:00:00

Parking spots

1

Vehicle

513adf1df

Parking Subtotal	$50.00
Transaction Fee	$0.60
Order Total	$60.60

why is the total $60.60?

it should be 50 + 0.60 = $50.60

Payment($60.60)

Back

total=parking fee + service fee+ tax fee

s the service fee charged per parking space or per order?

zhenyan.guo when i click go back and click confirm, the page stays on the same page and doesnt go back:

+
Add More License Plates

-we can add this button
-when the user click it, it will make a new field for the user to enter more license plates number.
-if they click again it adds another license plate field.
-the reason for this, is that the user might come in with a truck to dispatch a container, then come in with a different truck at a later time within the duration to pickup the container. so that way they can have all trucks license plates in the system.
-all license plates in the system will be allowed to enter the field only if:
-the license plate matches what is on the account
-it is within the permitted reserved time that they have
-if the capacity of the yard allows trucks to go it
-if the account has available empty spots in the yard
